OCTOBER 2007 Vol. 29 No. 10

PRECAST/PRESTRESSED AND POST-TENSIONED CONCRETE

- 39 Post-Tensioned Shotcrete Shearwalls**
An innovative approach to earthquake safety and concrete construction in buildings
by Leo Panian, Marc Steyer, and Steven Tipping
- 46 Launch and Shift of the Tiziano Bridge**
Bidirectional movement provides value-engineering solution
by Marco Rosignoli and Chiara Rosignoli
- 52 Critical Milestones in Development of Post-Tensioned Buildings**
A look back at the last 50 years of progress
by Bijan O. Aalami
- 58 Fabcon Further Optimizes**
New wall panel provides increased insulation
by Jason Hensley

ALSO FEATURING

- 29 ACI Officers Nominated for 2008-2009**
García for President, Stehly for Vice President, and four new Directors
- 35 Fourth International Workshop—Structural Concrete in the Americas**
A summary of the technical sessions and recommendations
by James R. Cagley and Shuaib H. Ahmad
- 60 Fly Ash: Cement Replacement or Mineral Admixture?**
How we think about fly ash may solve many construction- and performance-related problems
by Bryce Simons
- 63 Reinforced Concrete Sections under Moment and Axial Load**
A spreadsheet-based program for producing moment-curvature and moment-axial force diagrams
by Sanaa S. Alaoui and Richard E. Klingner
- 74 ACI Chapter Directory**
