

ACI

MATERIALS JOURNAL

- 433 Comparison of Methods for Texture Assessment of Concrete Surfaces/*P. M. D. Santos and E. N. B. Santos Júlio*
- 441 Effect of Aggregate Type on Mechanical Properties of Reactive Powder Concrete/*S. Aydin, H. Yazici, M. Y. Yardimci, and H. Yigiter*
- 450 Bidirectional Multiple Cracking Tests on High-Performance Fiber-Reinforced Cementitious Composite Plates/*B. Suryanto, K. Nagai, and K. Maekawa*
- 461 Precision of Compressive Strength Testing of Concrete with Different Cylinder Specimen Sizes/*H. Taghaddos, H. R. Soleymani, and J. D. Robson*
- 469 Numerical Simulation of Stress Waves on Surface of Strongly Heterogeneous Media/*D. G. Aggelis*
- 474 Influence of Fiber Type on Creep Deformation of Cracked Fiber-Reinforced Shotcrete Panels/*E. S. Bernard*
- 481 Suitability of Various Measurement Techniques for Assessing Corrosion in Cracked Concrete/*M. B. Orieno, M. G. Alexander, and H. D. Beushausen*
- 490 New Method for Proportioning Self-Consolidating Concrete Based on Compressive Strength Requirements/*G. F. Kheder and R. S. Al Jadiri*
- 498 Thermal Strain and Drying Shrinkage of Concrete Structures in the Field/*S. Choi and M. C. Won*
- 508 Powder Additions to Mitigate Retardation in High-Volume Fly Ash Mixtures/*D. P. Bentz*
- 515 Inclined Plane Test to Evaluate Structural Buildup at Rest of Self-Consolidating Concrete/*K. H. Khayat, A. F. Omran, and T. V. Pavate*
- 523 Electrical Resistance Tomography for Assessment of Cracks in Concrete/*K. Karhunen, A. Seppänen, A. Lehtikoinen, J. Blunt, J. P. Kaipio, and P. J. M. Monteiro*
