

ACI

# STRUCTURAL JOURNAL

- 657 Strut-and-Tie Model Analysis for Strength Prediction of Deep Beams/*J.-w. Park and D. Kuchma*
- 667 Experimental Evaluation of Factors Affecting Monotonic and Fatigue Behavior of Fiber-Reinforced Polymer-to-Concrete Bond in Reinforced Concrete Beams/*K. A. Harries, B. Reeve, and A. Zorn*
- 675 Concepts Underlying Reinforced Concrete Design: Time for Reappraisal/*M. D. Kotsovos*
- 685 Bond Stresses Along Plain Steel Reinforcing Bars in Pullout Specimens/*L. R. Feldman and F. M. Bartlett*
- 693 Fiber-Reinforced Polymer Confined Rectangular Columns: Assessment of Models and Design Guidelines/*M. Hassan and O. Chaallal*
- 703 Ductility of Flat Plates: Comparison of Shear Reinforcement Systems/*C. E. Brooms*
- 712 Flat Plates in Seismic Areas: Comparison of Shear Reinforcement Systems/*C. E. Brooms*
- 722 Structural Behavior of Fiber-Reinforced Polymer-Autoclaved Aerated Concrete Panels/*N. Uddin, F. H. Fouad, U. K. Vaidya, A. K. Khotpal, and J. C. Serrano-Perez*
- 731 Experimental and Analytical Progressive Collapse Evaluation of Actual Reinforced Concrete Structure/*M. Sasani, M. Bazan, and S. Sagiroglu*
- 740 Textile-Reinforced Mortar versus Fiber-Reinforced Polymer Confinement in Reinforced Concrete Columns/*D. A. Bournas, P. V. Lontou, C. G. Papanicolaou, and T. C. Triantafillou*
- 749 Experimental Verification of Strut-and-Tie Model Design Method/*M. T. Ley, K. A. Riding, Widianto, S. Bae, and J. E. Breen*
- 756 Behavior of Corroded Bar Anchorages/*S. P. Tastani and S. J. Pantazopoulou*
